

PhD Forum 2025

Call for Submissions

31 March – 2 April 2025 | Lyon, France

The PhD Forum is a **poster session** hosted by the European Design Automation Association (EDAA), the ACM Special Interest Group on Design Automation (SIGDA), and the IEEE Council on Electronic Design Automation (CEDA). The forum is an excellent opportunity for PhD students who have completed their PhD thesis within the last 12 months or who are close to completing their thesis to present their work to and discuss it with a broad audience in the system design and design automation community from both industry and academia. The forum may also help students to establish contacts for entering the job market. In addition, representatives from industry and academia get a glance of the state-of-the-art in system design and design automation.

Important dates

Submission deadline: Sunday, 01 December 2024 AoE

Notification of acceptance: Friday, 10 January 2025 AoE

Presentation at DATE: Monday, 31 March 2025

Eligibility

The following two classes of students are eligible:

- Students who have finished their PhD thesis within the last 12 months and
- Students who are close to completing their thesis work.

Benefits

- A poster presentation at the PhD Forum
- Eligibility to win the PhD Forum Award
- Contacts to professionals from industry and academia (also thanks to the YPP activities)
- Possibility to distribute flyers summarizing the PhD work
- Possibility to apply for travel grants once the acceptance of the submission has been acknowledged

Submission

Submissions need to contain:

- A 2-page extended abstract describing the novelties and advantages of the thesis work following the given template ([link](#)). The abstract should also include name and affiliation.
- Either (a) a University-approved thesis proposal (PDF) or (b) one published paper (PDF)

Submit this material to the DATE online submission system at <https://www.softconf.com/date25/phdforum>.

EDAA is a nonprofit association. Its purpose is to operate for educational, scientific and technical purposes for the benefit of the international electronics design and design automation community. The Association, in the field of design and design automation of electronic circuits and systems, promotes a series of high quality technical international conferences and workshops across Europe and cooperates actively to maintain harmonious relationships with other national and international technical societies and groups promoting the purpose of the Association. EDAA is the main sponsor of DATE, the premier Design, Automation and Test Conference and Exhibition in Europe.

<https://www.edaa.com>

The ACM Special Interest Group on Design Automation is organised and operated exclusively for educational, scientific, and technical purposes in design automation. The mission of SIGDA and its activities includes collecting and disseminating information in design automation through a newsletter and other publications; organising sessions at conferences of the ACM; sponsoring conferences, symposia, and workshops; organising projects and working groups for education, research, and development; serving as a source of technical information for the Council and subunits of the ACM; and representing the opinions and expertise of the members-hip on matters of technical interest to SIGDA or ACM.

<https://www.sigda.org>

The IEEE Council on Electronic Design Automation (CEDA) provides a focal point for Electronic Design Automation (EDA) and embedded systems research and promotion activities spread across six IEEE societies: Antennas and Propagation, Circuits and Systems, Computer, Electron Devices, Microwave Theory and Techniques, and Solid-State Circuits. The Council sponsors or co-sponsors over a dozen key EDA and embedded systems conferences, and publishes IEEE Transactions on CAD, IEEE Design & Test of Computers, and IEEE Embedded Systems Letters. CEDA is continuously involved in promoting research in engineering performed by young researchers and professionals, and recognizing its leaders via the A. Richard Newton Award, Early Career Award, and Phil Kaufmann Awards.

Young People Programme (YPP)

If you are interested in the DATE 2025 PhD Forum, also the Young People Programme (YPP) will be of interest for you! This provides a set of initiatives targeting PhD students, with the goal of increasing their visibility, establishing contacts, and encouraging discussion about their future perspectives with experts in the field.
